MESSAGE FROM THE PRESIDENT

The students, faculty, and staff of Shelton State Community College are shaping their futures through occupational and technical education, university-parallel courses, and workforce skills training.

Shelton State is striving to meet the needs of all segments of the West Alabama community by responding quickly and creatively to the challenges of life in the 21st century. The TEAMSpirit quality initiative has already demonstrated measurable results and is the engine behind Shelton State's commitment to innovation and continued improvement at every level.

Our ability to attain success is due, in large part, to the support of the SSCC Foundation. On behalf of the College, I acknowledge and appreciate this support. Together, we will establish benchmarks for excellence in education while continuing to make dreams come true.

Rick Rogers, Ed.D., President,
Shelton State Community College
Ex Officio Member, Board of Directors,
Shelton State Community College

TEAMSpirit— RESULTS *and* IMPROVEMENT *on* EVERY LEVEL

Our primary objective is to equip students with the knowledge and skills necessary for life and work in a rapidly changing world. Scholarships and other financial support provided by the Foundation help make this possible.

Board members Bob Lake, Joe Mallisham, Rickey Harrison, Paul Ray with Ashley Ferry, President.

We are not passive where change is concerned. Our faculty members and administrative personnel are continually and purposefully observing, listening, and researching.

Our mission encompasses service to all citizens of West Alabama, not just to the traditional college student. We strive to understand the needs of our community and provide educational resources to serve those needs. Shelton State also takes an active role in

enhancing our community's cultural and social life. We invite you to become an active participant in our future—and in our community's future—by supporting Shelton State Community College through the Foundation and by participating in the many programs and opportunities we offer.

*Bill Langston, Executive Director,
Alabama Fire College*

*Rick Rogers, President,
Shelton State Community College*

*Karen Van Luvender,
Dean of Business Services*

Situated on 170 acres in south Tuscaloosa is the larger, and newer, Martin Campus. Shelton State's C. A. Fredd Campus is designated as one of the nation's Historically Black Colleges and Universities with a mission to promote educational access and opportunity for all students in a culturally diverse community.

Excellence— *in* ACADEMICS

Situated on the Martin Campus, the Academic Division of Shelton State Community College is the cornerstone to one of the most unique and diverse training/educational environments in the South. Meeting the needs of a new, technological world, Shelton State offers more than 30

general education programs that fill the wide-ranging needs of West Alabama students.

Academic programs range from basic developmental courses to programs for students intent on transferring to four-year colleges and universities.

The true measure of Shelton State's excellence can be found in the quality of its instructional staff and faculty, who continue to win national, regional, and

state awards for excellence. Shelton State students also continue to excel, earning national recognition for excellence in the classroom and consistently performing well after transferring to four-year schools.

LIFETIME LEARNING

Shelton State offers a range of credit and non-credit programs that exemplify the College's emphasis on lifelong learning. Area residents may enroll in a diverse listing of continuing education classes available through the College.

Numerous Shelton State courses are available online, meeting future demands, and broadening options for students. At Shelton State, college is now becoming available anyplace and anytime.

Shelton State Community College
has been designated the
"ALABAMA JUNIOR COLLEGE
for the
FINE ARTS."

Innovation— through TECHNOLOGY

Using state-of-the-art equipment, skilled instructors, and timely subject matter, the Technical Division of Shelton State teaches, retrain, and strengthens the existing and future workforce. The Foundation provides a strategic bridge for expanding and building relationships between Shelton State and businesses, manufacturers, and community organizations. Through these partnerships, students acquire the knowledge and skills necessary for employment, and individuals already in the workforce improve upon existing job skills.

Shelton State participates in Alabama's Tech Prep Program, an arrangement with area secondary schools that expedites a student's completion of technical certificate programs.

TRAINING FOR BUSINESS & INDUSTRY

The Training for Business and Industry Center (TBI), a partnership between Shelton State and West Alabama employers, is uniquely positioned to equip workers with the job skills that companies need for financial success in today's rapidly changing, international marketplace.

TBI works with business and industry to identify specific needs and then, designs and teaches courses to meet those needs. Advisory teams from business, industry, and government ensure that TBI continues to meet the quality requirements of each industrial and business customer with state-of-the-art equipment and techniques.

*From entry-level training and workplace literacy . . .
to advanced management and leadership development . . .
to computer-based manufacturing and services,
TBI is answering the call of West Alabama employers.*

WORK KEYS PROGRAM

Shelton State is designated by the State of Alabama as an ACT Work Keys Service Center. The Work Keys system enables employers to assess the work skills of potential employees, profile skill levels needed for specific jobs and occupations, and devise targeted instruction to assist individuals

in skill improvement to meet job requirements. The Work Keys program is an essential component in the College's mission to serve the needs of business and industry in West Alabama.

Student LIFE at Shelton State

Shelton State's students are encouraged to participate in college life beyond the classroom.

Events such as "Get On Board" days, held at the beginning of each semester, publicize opportunities for involvement and demonstrate how extra-curricular activities can:

- foster self-improvement;
- facilitate the development of leadership skills; and
- promote cultural awareness.

How to SUPPORT *the Foundation*

Established in 1964, the Shelton State Community College Foundation was created to provide the College with support while remaining a separate entity from Shelton State Community College. Since its beginning, the Foundation has accounted for millions of dollars raised in support of school needs. The private, nonprofit corporation merged with the C. A. Fredd State Foundation in 1995.

Dedicated in 1989, the Beatrice Morrison Industrial Training Center is one of the accomplishments of the Foundation's fund-raising efforts. Today, the Foundation not only provides thousands of dollars in scholarships for deserving students but also makes other significant contributions that improve administrative, faculty, and staff effectiveness. The Foundation is an important tool for the entire college community to use as it moves toward greatness. The "Friends of the College" scholarship program was established in 1990.

Memorials and tribute gifts are acknowledged with a card to the family of the deceased or to the person(s) being honored. Proceeds from memorials are used for scholarships unless specified by the donor.
